

Helping improve the standard of patient care across the globe

ELECTROSURGICAL INSTRUMENTS

www.surgiscape.net

About Us

SURGISCAPE is one the leading manufacturers of custom designed surgical instruments in Pakistan, having quality conscious customers all over the world. Our company was established in 1992, and since then our mission has remained unchanged: to manufacture and supply highest quality instruments to help improve the standard of patient care across the globe.

All our instruments are made from the finest quality raw materials that conform with International Quality Standards and are fully traceable. Our ethos include an intense focus on quality due to which every instrument goes through a vigorous quality control inspection at every step of the process chain because we realize the responsibility we have been entrusted with and firmly believe in doing the right thing, always.

At **SURGISCAPE**, we consider our main asset to be our workforce which comprises of some of the most time served & experienced surgical instrument markers in the industry who help us craft the finest instruments and achieve our purpose of saving thousands of lives every year.

Moreover, we follow very rigid regulatory standards that fuel the importance of a strong ethical and compliant culture. This culture has been institutionalized through below effective processes,

- Conducting periodic risk assessments
- Conducting internal monitoring and auditing
- Implementing written Policies and Procedures
- Conducting effective training

At **SURGISCAPE**, we value life - which is why every instrument we make is the instrument we can blindly trust to be used on ourselves.

Why Choose Us?

Customization:

We are an OEM company fully equipped to customize any instrument as per your particular design & specifications.

Production:

We manage E2E process chain and have the highest production capacity in the entire region.

Quality:

We ensure compliance to the highest quality standards at every stage of manufacturing.

Customer Service:

We help you through the entire process including delivery all within the committed time line.

Innovation:

We use the latest ERP systems and manufacturing technologies that offer full traceability

Responsibility:

Responsibility & Ownership are at the heart of our core values. We believe in doing the right thing always
